

## ABOUT

I am Thomas and I aspire to become a Fullstack Web Developer Jr. During my studies and experiences I have been able to touch different sides of the digital world and technologies.

Programming for me is a way to stimulate my curiosity and I can't wait to start writing code and take on new challenges. My goal is to become the best version of myself.

# THOMAS VENTURINI

## Web Developer Fullstack Jr

### EDUCATION

*Diploma Liceo scientifico delle scienze applicate  
Carlo Anti 2015*

*Boolean Careers (Course of web development)  
Nov 2021 - May 2022*

*Study and development of both frontend and backend apps.  
In the final project my group and me developed a web application  
inspired by Deliveroo, consisting of backend (Authentication, Payment  
Provider Integration) and responsive Frontend interface.*
